Intrauterine insemination is a procedure that places washed sperm into the uterus using a small catheter in order to assist patients in becoming pregnant.

We understand that there is no guarantee that these inseminations will result in a pregnancy. We further understand that within the normal human population a certain percentage (approximately 4%) of children born with physical or mental defects and the occurrence of such defects is beyond the control of physicians. We therefore understand and agree that CNY Fertility Center and its physicians do not assume responsibility for the physical and mental characteristics of any child or children born as a result of artificial insemination. We also understand that within the normal population 20% of pregnancies result in miscarriages and that this may occur after insemination as well. Similarly, obstetrical complications may occur in any pregnancy. We also understand and accept that the artificial insemination procedure carries with it the risk of sexually transmitted diseases including but not limited to gonorrhea, syphilis, herpes, hepatitis and acquired immune deficiency syndrome (AIDS). This agreement is not a contract to cure, a warranty of treatment, nor a guarantee of conception. By these presence we do hereby absolve, release, indemnify, protect and hold harmless from any and all liability for the mental or physical nature of character of any child or children so conceived or born, and for affirmative acts or acts of omission which may arise during the performance of this agreement, CNY Fertility Center staff and physicians. Records are required to be kept for up to 25 years.

We understand that, if a woman is artificially inseminated with the consent of her husband/partner, the husband/partner is treated in law as if he were the natural father of a child thereby conceived. It is further agreed that from conception, I, as husband/partner accept the act of insemination as my own and agree:

- That such child or children conceived or born shall be my legitimate children and heirs of my body and
- That I hereby waive forever any right which I might have to disclaim or omit the child or children as my legitimate heirs, and
- That such child or children conceived or born shall be considered to be in all respects including descent and distribution of my property, a child or children of my body.

In the event I cannot deliver the specimen in person, I give my wife/partner permission to deliver my sperm to CNY Fertility Center.
