- If client becomes pregnant and delivers child prior to 4th cycle, contract is completed. Must be used within 18 months.

\* These IVF Packages include anesthesia, ICSI, assisted hatching, retrieval, embryo transfer, storage of frozen embryos and FET cycles for one year. Patient is responsible for all labs, ultrasounds and medications. We will bill insurance for monitoring and accept what insurance pays minus the co-pays, co-insurances and deductibles. If patient has frozen embryos, they must be used prior to proceeding with the next fresh IVF cycle.

### Mini-IVF Cycles

We offer Mini-IVF cycles at the same discounts as our standard IVF cycles (above). Savings in cost can be found with a Mini-IVF cycle option due to reduced medication costs. The reported success rates for a Mini-IVF cycle are approximately 1/3 of the successes found with a standard IVF cycle.

\*If you are interested in exploring this option, please inquire with one of our staff members.

### Donor Program IVF Single Cycle

**\$11,000\*\***

#### Donor Program IVF Discounted Multiple Cycles

##### 2 cycles for \$16,500\*\*

- \$10,000 deposit at date of starting Lupron and remainder financed for 12 months interest free.
- \$541.67 monthly payment deducted from credit/debit card (around the 15th of the month).
- If client becomes pregnant and delivers child prior to 2nd cycle, contract is completed.

##### 4 Cycles for \$30,500\*\*

- \$20,500 deposit at date of starting Lupron and remainder financed for 12 months interest free.
- \$833.33 monthly payment deducted from credit/debit card (around the 15th of the month).
- If client becomes pregnant and delivers child prior to 4th cycle, contract is completed.

\*\*These Donor IVF Packages include anesthesia, ICSI, assisted hatching, retrieval, embryo transfer, storage of frozen embryos and FET cycles for one year. Patient is responsible for all medications for client and donor. The recipient's medication is estimated. If patient has frozen embryos, they must be used prior to proceeding with the next fresh IVF cycle.

Note: Prices are always subject to change.

- Includes sperm preparation and artificial insemination.
- Excludes medications – they can be approximately \$200-\$400.

IUI with injectable medication - \$1,000

- Includes monitoring ultrasounds and monitoring labs, as needed.
- Includes sperm preparation and artificial insemination.
- Excludes medications – they can be approximately \$3,000.

Ovulation Monitoring - \$250

- Includes ultrasound, office visit, E2, progesterone & LH.

## Reversal Surgery

**Tubal Ligation and Vasectomy Reversal - \$6,500** (includes anesthesia)

Please note: Reversal Surgeries must be paid in full prior to scheduling the procedure. If the procedure is to take place at a hospital, not CNY Fertility Center, pricing may vary.

## Monitoring

- Flat Rate Monitoring – \$750 This includes baseline ultrasound and labs along with your follicular monitoring leading up to your procedure (some insurance plans may cover this).

## Frozen Embryo Transfers

\$1,250 after one year

- FET is included in package prices for up to one year (no additional charge until after one year)
- If client has diagnostic coverage, we will bill insurance for ultrasounds and lab work.
- Ultrasounds and labs approximately \$750.
- Medications approximately \$300.

## Lab Services

**Preimplantation Genetic Diagnosis (PGD)**

Biopsy and Fixation offered through CNY Fertility for \$1500. CNY Fertility works closely with Reprogenetics to offer many PGD services. Payment for services rendered by Reprogenetics will be paid directly to Reprogenetics and will vary depending on services selected.

**Out of Town Transfer of Egg, Sperm, and Embryo - \$100 Admin Fee**

**Cryopreservation**

Egg Freezing - \$2,500 Excludes monitoring (\$750) and medications (approximately \$3,000).

**Embryo Storage - \$200 per year for one cane** (amount of samples per cane may vary)

**Sperm Freezing and Storage - \$200 per visit** (capped at \$400 per 30 day period)

- Includes first year of storage. After one year, storage cost is \$200 per year, per cane (each cane holds approx. 6 samples).
